

Quick Stars Tutoring Celebrates its 10th Year!

by Meghan Small

For 10 years, Quick Stars Tutoring has been a leader in the tutoring community by preparing and equipping students of all ages with the tools needed to be star students. Conveniently located in Waipio, Quick Stars focuses on strengthening academic skills in all subjects, including kindergarten readiness, private school admissions tests and SSAT/SAT/ACT prep.

Tracy Lee, Owner of Quick Stars, believes that the recipe for success is the one-on-one approach provided to all students and a motivating, patient tutor. The tutor has the ability to focus and hone in on which specific areas the student needs extra support. The tutor then works with the

child to boost his confidence level, so that the child will be able to overcome challenges on his own.

“As important as the academics are, it’s just as important to have positive encouragement,” stresses Lee. “If they believe they can do it, they will do it.”

Quick Stars Parents are speaking up about the tremendous progress their children made.

“Quick Stars prepared Maika for the rigorous private school entrance exams. His pre-school teacher stated that he was the only student she had in 31 years that aced the Early Childhood Education Assessment. We always recommend Quick Stars to everyone we know!” –Mat, Parent
